

Volume 13, Issue 24: Transitioning Well

Even with an ending of an era, things can be beautiful. Joy can still be found in a time of goodbyes, even in the face of uncertain tomorrows. God has a way of making all things beautiful.

A time comes when a term of service comes to an end, when your time in a particular place comes to an end. A time comes when we have to accept that what was will no longer be, and that something else, something new, something different will be taking the place of what was.

Transitions are inevitable at some points in life. It's often said that transitions are difficult. But I think that this is not necessarily true. Having a difficult transition is optional. You can choose to have an easy transition by preparing for it and having a good attitude about it.

For His Glory,

Lillian Chebosi
